THE COMPANY

SA FIVE ENGINEERING (PTY) LIMITED commenced operations in Cape Town, South Africa in March 1991. Since its inception, the company has established itself as one of the most professional, reliable and efficient contractors in the country. This position has been secured by adopting a policy based on safety, quality, and service. Over the decades, we have always maintained a strong client focused approach to doing business, which undoubtedly remains the cornerstone of our success.

SA FIVE ENGINEERING (PTY) LIMITED provides quality services to major global companies in the engineering and construction industries. Fabrication, construction, installation and maintenance for:

OFFSHORE PLATFORMS/SUBSEA STRUCTURES & MODULES

FPSO/DRILLSHIP TOPSIDES

REFINERIES

OPEN CYCLE GAS TURBINES (OCGT)

MINING INSTALLATIONS

PROCESS PLANTS

HYDRO / SOLAR & NUCLEAR PLANTS

WATER TREATMENT PLANTS

Our head office and workshop are located in Blackheath, Cape Town, however, company operations are not restricted to a particular region and we have proven our ability to transfer our knowledge, professionalism and efficiency across the southern continent. SA Five Engineering (Pty) Ltd is positively positioned, to assist a client that requires an innovative and dedicated contractor to meet project demands in the remotest of locations.

We are certified and maintain standards in accordance with the internationally recognized ISO 9001 – 2015 code of practice certification. This certification ensures the highest quality workmanship, in addition to record keeping and traceability to facilitate future modifications, expansions and replacements.

OUR COMPANY CULTURE IS BASED UPON THE BEST WORKING PRACTICES, WITH SPECIFIC FOCUS ON QUALITY, HEALTH, SAFETY AND THE ENVIRONMENT. WE ACHIEVE OUR OBJECTIVES THROUGH THE PROVISION OF FAST, EFFECTIVE TURNKEY SOLUTIONS.

FOUNDING PRINCIPLES AND VALUES

THE COMPANY

- Independence, Integrity, Reliability;
- Confidentiality within all business transactions;
- Dedicated to providing comprehensive services;
- Customer focused to offer a complete solutions;

OUR PEOPLE

- Extensive experience in construction of process plants and modular units;
- Maintain the highest level of service and support;
- Ensure ethical dealings
- Empowered to make decisions relevant to their level of functioning;
- Challenged to strive for high performance standards;
- Trained and always implement QHSE requirements

ON-SITE TEAMS

Our on-site management system, includes on-site teams that operate as self-contained units, under the leadership of a project manager. In so doing, we have achieved significant success in managing off-site projects throughout South Africa.

We are continually involved in capital and maintenance projects for clients such as De Beers, Transnet, Proxa and Voith Hydro.

DE BEERS GROUP

TRANSNET

SAFETY

Our safety policy is administered by full-time safety personnel that ensure our workshops and contract sites are run in strict accordance to current safety legislation.

FACILITIES

Our workshop facility (12,000 sqm) is fully equipped with overhead cranes (7m under hook), cold cutting, plasma profiler, rolling, drilling, cropping and welding machines. Our lay down area (8,500 sqm) allows fabrication and storage of significant sized structures.

Our workshop is serviced by overhead craneage that enable us to produce work at competitive prices, whilst maintaining a high degree of quality. Sliding doors enable the fabrication of different metals (stainless steel and duplex) to take place in isolated environments with no cross-contamination.
